

Nurse practitioners, Physician Assistants and nurses! Plan to join us at NANS 2017 for

A - Z IN NEUROMODULATION

Advanced Practice Provider Course

This course will provide an overview of topics in neuromodulation through lectures, case studies, panel discussions and a jeopardy board review. The material will be presented by physician and APP faculty and will be relevant for anyone with an interest in neuromodulation or working in a pain management, neurosurgery, neurology, orthopedic or PM&R practice.

Come network with peers from around the country, expand your knowledge about familiar topics, discover something new, and take advantage of the opportunity to discuss questions with experts in the field!

Topics Include

- Review of brain and spine imaging
- Spinal cord stimulation,
- Intrathecal pumps with hands-on course
- Pain management interventions
- Deep brain stimulation
- Patient selection and problem solving
